

Health & Safety Advisor

Location: West Cumbria

Contract: Permanent, Full Time

We are looking for an experienced Health & Safety Advisor to join our team, working within the nuclear industry.

This is a fantastic opportunity for a proactive safety professional to work in a highly regulated, technically challenging environment where your expertise makes a difference.

The role

As a Health & Safety Advisor, you will provide competent health and safety advice, assurance, and support to operational teams. You will help ensure work is planned and delivered safely, risks are effectively managed, and legal and company requirements are consistently met.

Key responsibilities include:

- Providing day-to-day health and safety advice to managers, supervisors, and operatives
- Supporting the development, review, and implementation of risk assessments, safe systems of work, and method statements
- Conducting workplace inspections, audits, and safety tours, identifying trends and improvement opportunities
- Supporting incident investigations, learning from events, and ensuring corrective actions are implemented
- Advising on compliance with relevant health and safety legislation, nuclear site licence conditions, and site-specific standards
- Promoting a strong, positive safety culture and influencing safe behaviours at all levels
- Liaising with internal stakeholders and contributing to safety improvement initiatives across the Separation Area

What we're looking for

You'll be a confident, credible safety professional who can challenge constructively and communicate effectively in a complex operational setting.

Essential:

- NEBOSH General Certificate (or equivalent)

- Experience working in a high-hazard or highly regulated environment (e.g. nuclear, chemical, oil & gas, energy, or heavy industry)
- Strong knowledge of UK health and safety legislation
- Ability to influence, engage, and build effective working relationships
- Good investigative, analytical, and report-writing skills

Desirable:

- Minimum of 2 years' experience within the industry, or similar
- Membership of IOSH

What we offer

- The opportunity to work on nationally important, technically complex operations
- A strong safety-first culture with access to experienced professionals and ongoing development
- Competitive salary
- Progression opportunities
